

Veritext Company Profile

Trust the Market Leader in Litigation Solutions

Veritext understands the demands of litigation management. We recognize that clients need a legal solutions partner that is accurate, fast, flexible and efficient. Veritext provides high quality, personalized service to clients throughout the litigation lifecycle.

About Us

Veritext is a market leader in court reporting and litigation support services. Founded in 1997, Veritext is committed to providing the legal industry with unparalleled service. We are focused on developing solutions that support the litigation process from discovery through trial, while helping clients reduce costs and increase productivity.

Veritext, headquartered in New Jersey, has offices nationwide. We are supported by over 10,000 court reporters and legal support service specialists, complemented by more than 600 additional affiliate firms.

Its extensive reach enables Veritext to provide deposition and litigation services for its clients anywhere in the United States, as well as internationally.

- Court Reporting Excellence
- Unparalleled Client Service
- National & International Coverage
- HIPAA, PII & SSAE 16 Compliant
- Advanced Technology

Veritext has the depth and breadth of services, as well as the resources, to provide all the services its clients need to support their litigation. Veritext can help your firm with the simplest to the most complex matter. Veritext covers all practice areas of litigation, including, but not limited to:

- Antitrust
- Labor/Employment Law
- Arbitrations
- Mass Tort/Pharmaceutical
- Bankruptcy
- Multi-District Litigation
- Class Action
- Medical Malpractice
- Construction
- Personal Injury
- Environmental
- Products Liability
- Intellectual Property/Patent
- Special Hearings

Veritext provides leading edge technology services including: webcasting of video depositions, multimedia trial support, exhibit linking and more.

Our Technology

Our industry-leading technology is paramount in every case we manage. Veritext's commitment to technology provides clients with continued success based on its ability to leverage Internet technology and other advanced communications solutions. Our technology helps clients increase productivity and reduce operating costs. In addition to traditional deposition services, Veritext offers advanced litigation support technology including:

- Remote Depositions
- Exhibit Capture
- Video On Demand
- Videoconferencing
- Online Repositories
- Video Streaming

Our People

At Veritext, our employees and court reporters are the cornerstone of our success. Our legal support service specialists possess the highest credentials in the industry. Our highly skilled staff consistently goes the extra mile so clients gain the most value from our services.

We are dedicated to providing personalized service and understand the individual needs of our clients. With locations across the U.S., we are able to offer the specialties of a small boutique firm while providing the cutting-edge service of a nationwide industry leader. Our staff is always available to assist clients with all of their deposition and litigation requirements.
