The Details are Covered

Nationwide Offices

Our state-of-the-art conference suites are equipped with technology, security, and wireless Internet -- experience seamless coordination of depositions around the corner or around the world.

World Class Service

Veritext's pool of more than 9,000 highly experienced court reporters, legal videographers and interpreters provide quality work, delivered when and where you need it.

24/7/365 Support

Veritext offers an around-the-clock client services team with the ability to handle logistics for nationwide services and IT support for high-end technologies.

Expert Case Managers

A dedicated single-point-of-contact case manager will oversee all aspects of your case and be available 24/7 to you and your team.

Security and Privacy

Veritext is HIPAA, PII & SSAE 16 compliant. Our data security is unmatched in the industry, ensuring that confidential information is safeguarded.

Leading Technology

Tools like Native Evidence Capture display electronic evidence and documents during a deposition and record mouse movements and keystrokes in realtime, creating great visuals for trial.

Remote Depositions

Save travel time and expenses by depositing witnesses remotely with Veritext Virtual. View all the attendees and share exhibits in realtime with up to 100 participants. Easily connect with just your webcam-equipped laptop or computer with an Internet connection.

On-the-go Access

Access your transcripts, exhibits and scheduling calendar instantly from MyVeritext, our client portal. Download transcripts in a variety of formats including ASCII, TextMap™, E-Transcript™ and linked PDF. Transcripts are fully searchable and can be viewed on your mobile device. Create shared case calendars that can be accessed securely by all parties to the case.

"I have taken or defended over 100 depositions over the last three years and there is nothing I can think of that wasn't done exactly right. Congratulations."

Solutions tailored to **YOUR** needs

Saving Money

When Attorneys General from more than 30 states were scheduled to participate in monthly Tobacco Master Settlement Agreement hearings, they trusted Veritext for a remote deposition solution that provided them with videostreaming, custom camera angles, exhibit display and recording features. The results streamlined the hearings, provided flexible viewing options and saved taxpayers tens of thousands of dollars in travel costs.

Staying Secure

When a law firm representing a regulatory agency was in need of a court reporting company capable of safeguarding highly confidential transcripts and exhibits, they turned to Veritext. With such strict security protocols, it's no surprise law firms have even required that Veritext host transcripts from all parties in order to ensure protection.

When Time Matters

When an attorney needed video deposition clips at the last minute for a high-profile trial, he relied on Veritext to retrieve the files and provide hands-on video training, leading to an impactful presentation in the courtroom and a favorable verdict for his client.

Creating Shared Calendars

When eight adversarial parties required a neutral agent to supply a secure online repository for deposition proceedings around the globe, they chose Veritext to create a shared multi-party case calendar. The calendar allows unlimited user access, and unique login IDs provide secure access to individual data.
